

TEEN ADVENTURE

- **My favorite part about Teen Camp** is that there are so many opportunities to experience a 'first'. A camper's first roller coaster, a first strike in bowling, a counselor's first waterslide, the possibilities are endless and so rewarding to be a part of!
- **I love the creativity and energy from campers** when we do our Iron Chef activity (a culinary battle with bizarre ingredients). They are determined to get the silliest reactions from their judges, our counselors, and it's always so much fun!
- **Our Teen Camp provides opportunities** for campers to explore spaces that may be outside the scope of their comfort zone by focusing on building life skills like leadership, resilience and teamwork in a supportive, inclusive and adventurous environment.
- **What makes our Teen camp a special place** is the unique combination of adventure, personal growth and building friendships. Campers have the chance to challenge themselves through exciting activities, while staff provide mentorship and guidance to ensure that everyone, campers and counselors, feel like they belong.
- **Teen Camp appeals to all types of campers!** Whether they enjoy outdoor sports, word puzzles or crafts, Teen Camp offers a variety of activities that push campers to try new things, build confidence and develop relationships with peers.
